COLOUR ASPHALT

顏色瀝青

In addition to the conventional black asphalt, K. Wah Asphalt can also provide colour asphalt with a range of colours for clients to select. While normal asphalt is more practical and affordable, colour asphalt is more attractive with its aesthetic appearance.

Using high performance bitumen or clear binder with colour pigments, our colour asphalt is suitable for highly trafficked roads. It can also provide a porous surface for a sustainable drainage solution to eliminate the problem of surface water.

Supplied by K. Wah Asphalt, the colour asphalts have a proven record of performance, including Ocean Park, LOHAS Park in Tseung Kwan O, and a private estate at Pak Kong in Sai Kung.

Applications

- Driveways
- Footpaths
- Parks
- Walkways
- Play areas
- Cycle tracks

嘉華瀝青既提供一般黑色瀝青，亦提供一系列的顏色瀝青給客戶選擇。鮮艷的顏色不但可以增強視覺效果，亦可以美化環境。

顏色瀝青使用高質的瀝青油或透明瀝青加上色粉而成，其耐用性與一般瀝青無異，適用於繁忙的道路，同時亦有疏水功能，減少路面積水。

曾參與項目包括海洋公園的熊貓館、烏龜館、將軍澳的日出康城及位於西貢北港的私人屋苑。
